Overview

How many Watts Does a 12 volt inverter have?

1200VA/720W 12v Inverter with built in battery charger and automatic switch between mains and backup modes. Modified Sine Wave. 2400VA / 1440W 24v Inverter with built in battery charger and automatic switch between mains and backup modes.

What is a vented inverter?

Vented, 30 amp AC input, 120 VAC/60 Hz (DC cover included) Outback vented inverters are designed mainly for RV or other mobile use, such as emergency vehicles, construction power, etc. They can also be used in marine applications where they are protected from any water spray, fumes, or high humidity.

How does an inverter/charger work?

There are two modes of operation associated with an inverter/charger: Direct current (DC) from the vehicle's batteries is transformed into alternating current (AC) for use with you household electrical appliances. Alternating current (AC) is taken directly from shore power (or other AC sources) and passed directly to your household appliances .
