## Albania Energy Storage Low Temperature Lithium Battery Factory

#### **Overview**

Vega Solar and Indian company Sainik Industries – Getsun Power agreed to build the first lithium ion battery factory in Albania. It would have 100 MW in annual capacity. Will Albania build its first lithium ion battery plant?

Chief Executive Officer Bruno Papaj said the firm signed a memorandum of understanding with an Indian investor on the construction of Albania's first lithium ion battery plant. The facility is planned to come online within two years, with 100 MW in annual capacity.

Is Vega Solar launching a lithium-ion battery manufacturing facility in Albania?

In the heart of the Balkans, an innovative partnership heralds a new era for Albania's renewable energy sector. Vega Solar, a pioneering Albanian energy firm, has recently unveiled plans for a groundbreaking collaboration with an undisclosed Indian investor, aimed at establishing the nation's inaugural lithium-ion battery manufacturing facility.

What does Vega Solar's strategic alliance mean for Albania?

This strategic alliance, announced by Vega Solar's CEO, Bruno Papaj, marks a significant leap forward in Albania's quest for energy independence and sustainability.

Why does Tirana need Vega Solar?

Furthermore, the country is exposed to drought and often turns to emergency imports. Tirana-based Vega Solar, which develops, installs and maintains rooftop solar power plants, saw an opportunity to contribute to diversification with battery energy storage systems.

Are lithium-ion batteries a threat to the environment?

The burgeoning global demand for lithium-ion batteries, propelled by the accelerating adoption of electric vehicles and the expansion of renewable energy storage, exerts significant strain on lithium mining and processing

operations, raising pertinent concerns regarding environmental impact and resource depletion.

Does Albania have a hydropower plant?

Hydropower makes up almost the entire domestic output in Albania, which helps balancing to a point, but it has no pumped storage hydropower plants. Furthermore, the country is exposed to drought and often turns to emergency imports.
