Bishkek energy storage photovoltaic project installation

Overview

Kyrgyzstan's Ministry of Energy has signed an agreement with Vietnam's Rox Energy Global and RECA LLC to develop a 1.9 GW solar project. The installation is scheduled for completion in 2027. Where is a 300 MW photovoltaic power station being built?

Bishkek, 21 May 2024. The Eurasian Development Bank (EDB) and Bishkek Solar have signed a cooperation agreement to finance the construction of a 300 MW photovoltaic power station in Toru-Aigyr village, Issyk-Kul Region, Kyrgyz Republic. The signing ceremony took place on 21 May in Bishkek, Kyrgyzstan.

Why should Kyrgyzstan invest in Kulanak HPP?

As part of the Central Asian Water and Energy Complex mega-project, the Kulanak HPP is expected to contribute to energy security and strengthen Kyrgyzstan's position in Central Asia's electricity market. The EDB has extensive experience in renewable energy projects.

How will EDB's Kulanak HPP benefit Kyrgyzstan?

The EDB is also implementing a project for the construction and operation of the Kulanak HPP, worth up to US \$127 million. As part of the Central Asian Water and Energy Complex mega-project, the Kulanak HPP is expected to contribute to energy security and strengthen Kyrgyzstan's position in Central Asia's electricity market.

Will EDB's Kulanak power plant comply with international standards?

The power plant will fully comply with international environmental and technical standards," emphasised Denis Ilin, EDB Senior Managing Director. The EDB is also implementing a project for the construction and operation of the Kulanak HPP, worth up to US \$127 million.
