#### **Overview**

What is xstorage battery energy storage system (BESS)?

The xStorage battery energy storage system (BESS) offers 250 to 1000 kWh of stored energy, providing eco-friendly backup power during outages and optimizes solar energy consumption, while also managing peak demands to reduce utility costs. Capture energy whenever it's available and use it on demand.

Why should you choose Eaton energy storage systems?

Take control of your energy supply, cut your energy bills and simplify your shift toward a more sustainable future. Eaton energy storage systems enable communities and businesses to access a safe, reliable and efficient solution to support the electrification of transportation.

How do energy storage systems benefit EVCI networks?

Our energy storage systems allow EVCI networks to better manage and distribute peak demand to save money on energy costs, reduce their impact on electrical infrastructure and earn revenue from grid support programs.
