### **Overview**

Does ABB supply inverters to Hungary?

We are able to supply all types of the ABB inverter family to Hungary. ABB is not only providing innovative and ultra modern technology to its clients through its products, but also extremely high quality steady repair services. ABB products and services are considered to be the best by the professional circles all over the world.

Who makes solar inverters?

Inverters | Solarcell Hungary. Inverters for solar systems The US-based - with European centres in Germany and Italy - Power-One company is the second largest inverter manufacturing company in the world, and was considered in 2012 to be the most trusted and most well-known inverter manufacturer.

Where can ABB inverters be installed?

ABB inverters can be used and installed in the territories of all energy suppliers. Inverters can be installed in the solar systems on the basis of individual permits granted by the energy suppliers.

Who makes power-one inverters?

The highest level of innovation and knowledge is focused in the planning, production, and also in the everyday life of the company - in Hungary the inverters of the Power-One company are marketed under the name Aurora since 2011. As of 2.

Are ABB inverters good?

ABB products and services are considered to be the best by the professional circles all over the world. The majority of the Hungarian professional participants have already started selling ABB inverters as premier class products with the satisfaction of the customers.
