

SolarGrid Energy Solutions

Chile energy storage power station investment

Overview

The government of Chile will launch a bill this year to procure large-scale energy storage systems for commissioning in 2026 totalling US\$2 billion of investment, on top of 5GWh already being sought for 2027-28. How many energy storage projects are in Chile?

Currently, 36 of the 129 large-scale projects Latin America projects with an energy storage component under development are in Chile, including 32 out of 71 of the region's early works projects. The storage technologies either in use or being considered include:.

Where are Chile's battery energy storage facilities located?

Chile's first battery energy storage projects were commissioned in 2009, and all but two of its 16 administrative regions have facilities in operation, under construction or in the planning stage. The greatest installed capacity is found in the northern regions of Antofagasta and Tarapacá, the country's solar powerhouses.

Are battery energy storage systems a viable alternative for Chilean power producers?

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged as a profitable alternative for Chilean power producers.

Is lithium ion battery storage available in Chile?

While many projects are under development, lithium - ion battery storage is still limited. According to data from Acera, the Chilean Renewable Energy Association, there are only 64MW of battery storage capacity currently active, representing 0.2% of national capacity.

How much battery storage capacity does Chile have?

According to data from Acera, the Chilean Renewable Energy Association,

there are only 64MW of battery storage capacity currently active, representing 0.2% of national capacity. AES Andes, a subsidiary of U.S. company AES Corp. operates all 64MW at their Angamos and Los Andes substations.

Will Chile support the energy transition?

A spokesperson for Engie Group told Dialogue Earth that Chile is seen as one of its strategic countries for supporting the energy transition, which "entails the investment of USD 1.8 billion by 2027. Our plan in Chile considers incorporating 1.4 GW to reach 2 GW of installed capacity in clean energy, including 2 GWh in storage systems".

Chile energy storage power station investment

Chile Already Halfway to 2 GW Energy Storage Target

Apr 29, 2025 · Chile's energy storage sector is experiencing significant growth, as outlined in the latest "Report on Projects Under Construction and Investment in the Energy Sector" by the ...

chile energy storage investment

Chile Energy Storage Industry Holds Promise, EMIS The government was quick to recognize to need for regulatory reforms to support BESS investments. In 2022, Chile passed an energy ...

Chile regulator kicks back Colbun's 800MW ...

Aug 15, 2024 · A satellite image render of the Paposo project from Colbun, showing the lower reservoir (centre) and the upper reservoir (top right). Image: ...

Chile Energy

Jul 1, 2025 · There are three approaches to energy storage available in Chile including Carnot Battery (thermal energy storage), battery energy storage systems (BESS), and liquid air ...

Sungrow Signs a 60MW/132MWh Energy ...

Sep 19, 2023 · Sungrow, the global leading inverter and energy storage system supplier, signed a contract with the Investment Fund WEG-4 to supply ...

Chile Power System Outlook

Sep 10, 2020 · Chile has attracted a cumulative \$14.8 billion in investment in large-scale renewable power projects since the start of 2010, with the country being one of the hottest ...

Large scale battery storage on the rise in Chile

Jun 5, 2024 · Three utility scale battery energy storage projects co-located with

solar plants were announced last week in Chile. Enel is building a 67 MW/134 ...

Canadian Solar subsidiary to supply 228MW ...

Apr 24, 2025 · Credit: Phonlamai Photo/Shutterstock. e-STORAGE, a subsidiary of Canadian Solar, has secured a contract from Chile-based power generation ...

Chile

Dec 7, 2023 · Overview Chile aims to reach carbon neutrality by 2050. Power generation companies have formally committed to retiring thermal power plants by 2040. Also, among the ...

Battery Energy Storage Systems (BESS) in Chile

Apr 25, 2024 · With transmission lines at overcapacity and permitting delays

slowing the development of new grid infrastructure, battery energy storage ...

Solar and Storage Solutions: Zelestra's Vision for ...

Mar 19, 2025 · Discover how solar and storage projects by Zelestra are shaping Chile's grid, enhancing reliability, and driving Chile's energy transition.

Chile: A 'showcase' for storage and the energy ...

Nov 3, 2023 · In October last year, Chile's parliament passed legislation aimed at incentivising energy storage and electric mobility development. Meanwhile, ...

CIP starts construction on 1.1GWh standalone BESS in Chile

Oct 8, 2024 · CIP has reached final investment decision on a

220MW/1,100MWh battery energy system storage in Antofagasta, Chile.

Chile Focuses on Solar and Storage as ...

Jul 1, 2025 · Chile is rapidly moving to build more power generation capacity, with much of that effort focused on renewable energy resources and battery energy ...

Chile's renewable energy sector is losing its lustre

Oct 16, 2024 · In the meantime, the uncertainty risks having the perverse effect of consolidating the energy sector back into fewer hands. And longer term, the bumpy trajectory of renewable ...

ENERGY STORAGE IS A CHALLENGE AND AN OPPORTUNITY FOR CHILE

Should energy storage power stations be scaled? In addition, by leveraging the

scaling benefits of power stations, the investment cost per unit of energy storage can be reduced to a value lower

Chile, Energy and Energy Storage

AES Gener and AES EnergyStorage have selected Parker-Hannifin to supply advanced battery energystorage systems for their new Cochrane power station. The project is the companies' ...

Chile makes progress on energy storage with ...

Aug 8, 2025 · With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the forefront of innovation and ...
