

SolarGrid Energy Solutions

China atess hybrid inverter factory company

Overview

WONVOLT Holdings limited was founded in 2016, with two factories located in Hefei, China. Where is ATESS based?

Based in Shenzhen, China, ATESS has a sophisticated and automated manufacturing plant. An international service network with offices and warehouses has been built in 5 continents to ensure fast shipping and after-sale service. Our product The ATESS solutions include all-in-one hybrid inverters, battery inverters and lithium battery solutions.

What is an all-in-one hybrid inverter?

All-in-one hybrid inverter combines solar and battery into one unit, with powers from 5kW to 150kW, allowing users to harness solar power, store excess energy, and use it during peak demand or outages. 15-20kW three-phase all-in-one hybrid inverter for small commercial use.

What is a hybrid inverter?

All-in-one hybrid inverter combines solar and battery into one unit, with powers from 5kW to 150kW, allowing users to harness solar power, store excess energy, and use it during peak demand or outages. The hybrid inverter can be divided into high-frequency type and power-frequency type. What are the differences between them?

.

How many kW can a hybrid inverter support?

Supporting up to 1200kW system capacity. All-in-one hybrid inverter combines solar and battery into one unit, with powers from 5kW to 150kW, allowing users to harness solar power, store excess energy, and use it during peak demand or outages. The hybrid inverter can be divided into high-frequency type and power-frequency type.

What is included in a HPS hybrid inverter?

Includes HPS all in one hybrid inverter (5kw to 150kw) PCS battery inverter (100kw to 630kw) and lithium battery (rack, cabinet or container), 3KW to 300KW EV charger. Our HPS large capacity all-in-one hybrid inverter for commercial application, supporting up to 600KW system capacity.

Is the ATESS hps150 compatible with all types of batteries?

It is not compatible with all types of batteries. Hybrid inverters usually have specific battery voltage ranges (for example, the battery voltage range of the AteSS HPS150 is 352-600V) and communication protocol requirements. When configuring the system, it is necessary to ensure:
