What are BMS products?

As electronic systems, BMS products play a pivotal role in monitoring and managing the performance of rechargeable batteries in various energy storage systems, including lithium battery, lead acid battery, and lifepo4 battery modules and packs, which are widely used in battery-powered applications.

Which BMS products are available in the domestic market?

It holds a prominent position in the domestic market, boasting a high market share. The company's automotive BMS range encompasses EV01, EV02, EV03, EV04, and EVO5 series, in addition to supplying large-scale BMS products to energy storage system integrators.

Which region has the largest BMS market?

Notably, the Asia-Pacific region, especially China, is currently the largest

region for the BMS (battery management system) market. In 2022, China's new energy vehicle sales reached 3.521 million units, accounting for 54.2% of the global total, surging 157.6% year-on-year, with a market penetration rate of 13.4%.
