# Containerized generator set procurement

## Overview

---

What is gencircle supply container type generator set?

Gencircle supply container type generator set is design in accordance with ISO/TC104 standard size, rational construction, to make sure the generator set will not be damaged due to under high pressure in transport, and is suitable for ship transportation. We can supply the 20' container, 40' container, and widen or heighten container type.

What is a containerized generator?

Less Maintenance The Containerized Series generator sets are designed for harsh weather and strict acoustical standards, utilizing a standard 40' high cube container equipped with an array of innovative features, allowing the system to operate reliably even in the hottest environments - validated at ambient temperatures of up to 55 degrees Celsius.

Why should you buy a Cummins containerized generator set?

More Robust. More Control. More Reliability. Factory pre-integrated and customizable per site requirements, the new Cummins Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower cost of ownership via a flexible design.

What is a containerized diesel generator set?

This containerized diesel generator set is developed by Ausonia S.r.l. This generator set is custom made specifically for power plants in LV and mV . DIESEL GENERATORS T2 T2 series diesel generators adopt PowerLink engine to meet the needs of energy service production. Their power ranges from 8KW to 3500KW.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both

mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

What are the different types of container generators?

We can supply the 20' container, 40' container, and widen or heighten container type. They are divided into the normal type and silent type. This series generator set can be easily moved to the desired location, can run under the most demanding working conditions.
