Egypt Alexandria energy storage project successfully connected to the grid

Overview

Dubai, United Arab Emirates, 15 July 2025 – AMEA Power, one of the fastest-growing renewable energy companies in the region, is pleased to announce the successful commissioning of Egypt's first-ever utility-scaled Battery Energy Storage System (BESS). What is a hybrid energy project in Egypt?

It will be one of the first hybrid renewable energy projects in Egypt and is expected to serve as a pilot for uptake of the technology in the country. The project will support the green energy transition in Egypt while helping keep the grid stable and reliable in the face of growing electricity demand.

How is Energos power ensuring a stable and uninterrupted power supply?

Badawi emphasized ongoing coordination between the Ministries of Petroleum and Electricity, alongside other key stakeholders, to ensure a stable and uninterrupted power supply throughout the summer. The Energos Power has a storage capacity of 174,000 cubic meters of gas.

How does Energos power work?

The Energos Power is equipped to receive imported liquefied natural gas (LNG), convert it back into its gaseous form, and feed it directly into Egypt's national gas grid. Minister Badawi said the move aligns with the government's broader energy strategy aimed at maintaining electricity grid stability during peak usage periods.

How does the EBRD invest in Egypt?

The EBRD's areas of investment in Egypt include the financial sector, agribusiness and manufacturing and services, as well as infrastructure projects in the power, municipal water and wastewater service sectors, and contributions to upgrading the transport sector.

Who received the minister at Alexandria Port Authority?

The Minister was received at the port by Ehab Salah, Chairperson of

Alexandria Port Authority, and Abdelkader Darwish, Chairperson of the Egyptian Company for Multipurpose Terminals (EGMT).

Grid-connected battery energy storage system: a review on ...

Aug 1, 2023 · Battery energy storage system (BESS) has been applied extensively to provide grid services such as frequency regulation, voltage support, energy arbit...

Egypt's Power Sector: Transition Towards ...

Apr 26, 2022 · Between 2015 and 2021, around 28.5 GW of generation capacity was added to the Egyptian power grid, enabling the country to become a ...

World's largest compressed air energy storage ...

Apr 10, 2024 · It is the largest grid-

connected CAES project of its size in the world, engineering firm China Energy Engineering Corporation claimed in its ...

Egypt set for giant solar-plusbattery storage ...

Sep 12, 2024 · Norway's Scatec has signed a 25-year PPA with Egyptian Electricity Transmission Co. (EETC) for a 1 GW solar and 100 MW/200 MWh ...

Energy storage system at JA Solar Yangzhou base connected to grid

Sep 6, 2024 · The plant utilizes the BlueGalaxy 1500V liquid-cooled energy storage system developed independently by JA Solar, comprising three energy storage units and one ...

Egypt Targets 42 Percent Renewable Energy by ...

Dec 23, 2024 · These projects span wind, solar, and hydroelectric power, as well as

storage battery systems designed to stabilise the national grid. This ...

150MW/300MWh! Egypt's Largest Standalone Energy Storage Project

Jul 7, 2025 · Through 12 cable loops, the system connects to the original PV booster station to realize PV-storage synergy, thereby improving grid stability and energy absorption capacity. ...

North Africa & Egypt Energy Overview Report 2025

Apr 18, 2025 · After a challenging year for the electric power sector, with spiking costs and extreme climate events continuing to test grid resilience, industry and policymakers across the ...

The world's first 100 MW advanced compressed air energy storage ...

Dec 1, 2022 · Recently, the world's first 100 MW advanced compressed air

energy storage national demonstration project was successfully connected to the grid in Zhangjiakou, Hebei. It ...

Egypt Advances Clean Energy Strategy with Landmark Storage Projects

Aug 10, 2025 · Minister Esmat noted that the electricity sector had successfully introduced battery-based energy storage systems in Egypt in recent months. Currently, there is a ...

Malaysia's First Large-Scale Electrochemical ...

Dec 24, 2024 · On December 23, local time, the Malaysia Sejingkat 60 MW Energy Storage Station connected to the grid, marking another significant ...

EBRD backs Egypt's first solar and battery storage project

May 12, 2025 · The European Bank for Reconstruction and Development (EBRD)

is supporting Egypt 's renewable-energy sector by providing a US\$ 30 million equity bridge to Obelisk Solar ...

Egypt Energy Transition

May 25, 2022 · A memorandum of understanding was signed between the General Authority for the Economic Zone of the Suez Canal, the Sovereign Fund of Egypt, the New and Renewable ...

AMEA Power Boosts Clean Energy in Egypt with New Battery Energy Storage

2 days ago · AMEA Power has signed groundbreaking agreements to develop battery energy storage systems in Egypt. The company plans to build projects with a total capacity of ...

150MW/300MWh! Egypt's Largest Standalone Energy Storage Project

Jul 7, 2025 · The project adopts Sineng Electric's 5 MW centralized PCS and

booster integrated units together with Trina Solar's Elementa liquid-cooled energy storage system, enabling 10 ...

AMEA Power completes 300 MWh battery storage project in Egypt

Jul 15, 2025 · AMEA Power has successfully commissioned Egypt's firstever utility-scale BESS, a 300 MWh facility located in the Aswan Governorate, south of Cairo, along the NIIe. The project ...

Egypt Launches First Utility-Scale Battery Storage to ...

Jun 18, 2025 · Egypt has officially launched its first-ever utility-scale Battery Energy Storage System (BESS), a milestone development aimed at fortifying national energy security and ...
