Energy storage battery container liquid cooling system manufacturer

Overview

Where is the containerized battery energy storage system manufactured?

The containerized battery energy storage system has been manufactured in Odense, Denmark by the system integrator and turnkey supplier Trident Maritime Systems. The battery system will be shortly transported to Singapore and installed on board the Maersk Cape Town.

What are the advantages of a 1500V energy storage system?

Integrated energy storage system, easily on the installation, operation and maintenance; ● Multiple balancing measures to ensure consistent battery life cycle; ● Integrated gas and water fire extinguishing device to ensure system safety under extreme circum-stances. ● Based on the 1500V platform design, the DC side efficiency can reach 93%□.

What are the advantages of integrated energy storage system?

Reduced Cost • Integrated energy storage system, easily on the installation, operation and maintenance; • Multiple balancing measures to ensure consistent battery life cycle; • Integrated gas and water fire extinguishing device to ensure system safety under extreme circum-stances.
