# First 720MWh energy storage project in St John s

0 0 0 1 1 1 1

### **Overview**

Why did Saint John energy add a battery storage site at Burchill?

Saint John Energy decided to add a battery storage site at Burchill partly due to the success the company has seen with their first Megapack project. Installed in 2020, the company was expecting to see large savings, and the Megapacks delivered just that, with Saint John Energy saving over \$109,000 in the first year of operation.

Where will Tesla megapacks be installed in Saint John?

Saint John Energy is embarking on a second battery energy storage project with Tesla Megapacks, this time at a new wind farm project near the city of Saint John. The Megapacks will be installed at the Burchill Wind Farm, located about 15km southwest of Saint John.

Where will the megapacks be installed in Saint John?

The Megapacks will be installed at the Burchill Wind Farm, located about 15km southwest of Saint John. The project was officially commissioned in June 2023 and features 10 turbines providing 42 megawatts (MW) of power, enough to supply 15% of the city's energy needs.
