French Photovoltaic Glass Project

Overview

Acteurs de l'Innovation | 16/10/2024 | France - The Isère industrial start-up Rosi Solar will supply AGC Glass Europe with significant volumes of glass from photovoltaic panels, from which it also extracts and recovers the critical materials. What is France PV industry?

France PV Industry: an ambitious photovoltaic industrial project to accelerate the ecological transition in France. Key players in French solar, the Alsatian industrialist Voltec Solar and the Photovoltaic Institute of Île-de-France (IPVF) are joining forces to give birth to a new photovoltaic industrial sector.

Where is a photovoltaic glass façade made?

Onyx Solar has produced a photovoltaic glass façade composed of photovoltaic glass in the attic of the façade of the Freedom building along the famous Admiral Bruix Avenue, in Paris, France. The 313.

What is Photovoltaic Glass?

The photovoltaic glass installed is Amorphous Silicon technology, with medium transparency and will prevent the emission of 40 tons of CO₂ into the atmosphere. The “FREEDOM” building is designed by the PCA architecture studio and includes 17,500m² distributed in a garden level, a ground floor, and 9 levels in the superstructure.

Who are Voltec solar & IPVF?

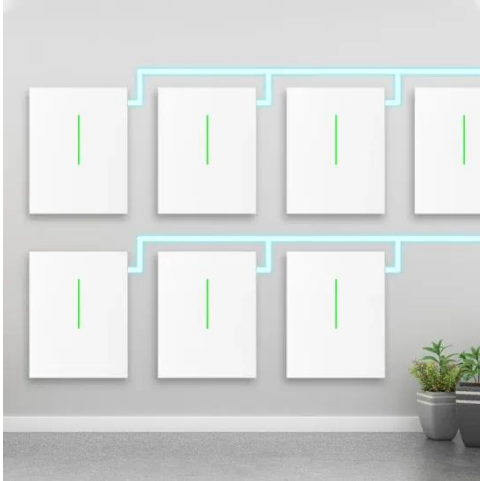

Contact Voltec Solar: Lucas Weiss – l.weiss@voltec-solar.com IPVF Contact: Roch Drozdowski-Strehl – roch.drozdowski@ipvf.fr Key players in French solar, the Alsatian industrialist Voltec Solar and the Photovoltaic Institute of Île-de-France (IPVF) are joining forces to give birth to a new photovoltaic industrial sector.

Will photovoltaics become a major industrial sector?

For Voltec Solar and the IPVF, photovoltaics must become one of these major

national industrial sectors and this is the objective stated by the France PV Industrie project which was the subject of a file submission in the Calls for Projects from ADEME for France 2030.
