

SolarGrid Energy Solutions

Ho Chi Minh Solar Inverter IGBT Module Factory Vietnam

Overview

Who makes solar panels in Vietnam?

In particular, the company produces monocrystalline and polycrystalline solar panels with current capacities that range from 3W to 320W. Located in the suburban area of Ho Chi Minh City, Vietnam, Solar Power Vietnam makes use of solar cells from Solar World (Germany) and Suniva (the U.S.A.).

Who is first solar Vietnam?

Our workforce in Vietnam has grown to more than 1,200 associates who are leading the way in the development of solar module design and production. First Solar Vietnam is committed to producing the industry's best thin film PV modules while maintaining a safe and secure environment for our associates.

Who is boviet solar?

Boviet Solar Technology Co., Ltd. is a Tier 1 integrated solar cell and module manufacturer with 1 GW annual production capacity. Aside from that, Boviet is also an investor for solar projects worldwide.

Why is Vietnam a good place to invest in solar energy?

The sunny quality of Vietnam's climate is actually a good sign right now because it means that this country can be a place where the solar industry can thrive. And the solar industry will thrive because there is already a growing demand for renewable energy nowadays and solar is arguably the most popular choice for renewable energy.

Is solar energy the right choice for Vietnam?

"Solar energy is the right choice for Vietnam because it's proven technology that can be quickly and readily deployed, even in challenging sites," she adds. Vietnam's transition to renewable energy comes as the country's electricity needs continue to increase due to strong economic growth projected at 5-7% per annum over the coming years.

Is Trina Solar a good choice for Vietnam?

“Trina Solar modules use dual-glass, useful for challenging environments like these where proximity to the sea means higher humidity and salt spray,” says Wang. “Solar energy is the right choice for Vietnam because it's proven technology that can be quickly and readily deployed, even in challenging sites,” she adds.
