Home energy storage BMS products

Overview

What are BMS products used for?

BMS products have been widely used in energy storage systems, electric two-wheeled vehicles, electric cruise ships, backup power supplies and other industrial markets.

What is a BMS & battery system?

The BMS and battery systems developed are key components in new energy vehicles and other application fields, with huge market development potential. Huasi System is a Chinese high-tech company focusing on energy storage product research and development, production, sales and service.

What is BMS + industrial and commercial energy storage inverter?

The complete set of energy control solutions of "BMS + industrial and commercial energy storage inverter" is suitable for industrial parks, backup power, photovoltaic storage, wind storage and other application scenarios to ensure the safety of industrial and commercial battery systems. Safe operation and system performance optimization.

What are smart BMS solutions?

Whether for electric vehicles, energy storage systems, or portable devices, our smart BMS solutions ensure safety, performance, and efficiency.

What are the different types of BMS products?

At present, the main products include automotive power battery BMS, energy storage power station BMS, intelligent lithium battery BMS, intelligent micro-storage BMS, and vehicle controller VCU, high-voltage box, monitoring screen, customized active equalization BMS, etc.

Can the electric vehicle BMS be applied to the energy storage system?

The electric vehicle BMS cannot be directly applied to the energy storage system. Therefore, the BMS on the energy storage system needs to be developed and optimized by a professional supplier or integrator based on the actual situation of the energy storage project.
