# How many 5G communication base stations are there in ASEAN

#### **Overview**

Which countries are launching 5G in Southeast Asia?

Countries in Southeast Asia (SEA) are at different stages of 5G adoption. The Philippines, Singapore, Thailand and Malaysia, for instance, are fairly mature markets while Indonesia is struggling to see 5G evolve amid tepid demand. Vietnam launched 5G only this year and Cambodia is yet to venture into 5G.

How many 5G subscriptions are there in South East Asia & Oceania?

Although each country in the South East Asia and Oceania region is at a different stage of their 5G journey, 5G is growing strongly, with the regional number of 5G subscriptions expected to reach close to 30 million in 2022. 5G is forecast to have around 620 million 5G subscriptions in South East Asia and Oceana by the end of 2028.

What bands will 5G be used in ASEAN?

5G will be deployed across multiple bands, with three bands likely to be important globally in the near-term: low band (700 MHz), mid-band (3.5 to 4.2 GHz), and high-band on mmWave spectrum (24 to 28 GHz). In ASEAN, many of these bands are already being used to provide other services.

How will 5G affect the ASEAN region?

Nurture the development of national cybersecurity capabilities in coordination with the ASEAN region. 5G will be deployed across multiple bands, with three bands likely to be important globally in the near-term: low band (700 MHz), mid-band (3.5 to 4.2 GHz), and high-band on mmWave spectrum (24 to 28 GHz).

How many GHz is 5G in ASEAN?

While 5G can be deployed across multiple bands, the initial core bands will be 3.5 GHz for mid band, 700 MHz for low band, and mmWave spectrum above 24 GHz. In ASEAN, 700 MHz and 3.5 GHz bands are still being used to provide

other services such as free-to-air (FTA) broadcast and satellite TV.

How many 5G base stations are there in Vietnam?

In total, there will be 100 5G base stations deployed by Viettel in the test area in which there are 15 5G stations made by Make in Vietnam products and 85 stations of other mobile vendors. The other mobile network operator, VNPT-VinaPhone, was licensed to test commercial 5G networks in two big cities, Hanoi and Ho Chi Minh city.
