

SolarGrid Energy Solutions

Huawei Accra Energy Storage Construction Project

Overview

How much money does Huawei invest in the Red Sea project?

It is built with a registered capital of RMB 3 billion (468 million USD) and has Hu Houkun, Deputy Chairman of Huawei as its legal representative. Huawei signed a key contract for The Red Sea Project with 1300 MWh battery energy storage solution (BESS) - the world's largest energy storage projects.

Who is responsible for Huawei energy storage system?

Among them, the ACWA Power will be responsible for the developer's part while Shandong Power will provide the EPC (Engineering, Procurement, and Construction) supplies. In July 2021, Huawei filed an energy storage system patent that was publicly shared on July 9th in China.

Is Huawei preparing for energy storage in 2021?

In July 2021, Huawei filed an energy storage system patent that was publicly shared on July 9th in China. This patent targets to normalize the hardware architecture and provides convenient maintenance with reduces costs. We can see the company has a long time preparation for the energy storage which is now gradually starting to implement in actual.

What is Saudi Red Sea New City Energy Storage Project?

After taking the Saudi Red Sea New City energy storage project, this Chinese firm will become the constructor of the largest energy storage base worldwide. Furthermore, the media reports reveal that the Red Sea New City Energy Storage Project is one of the major highlights of the "Vision 2030" blueprint drafted by Saudi Arabia.
