# Lc energy storage system

#### **Overview**

Is LC energy developing a battery energy storage system?

A render of a 500MW/2,000MWh project that LC Energy is developing. Image: LC Energy, Castleton Commodities International LLC (CCI) subsidiary S4 Energy has acquired Netherlands battery energy storage system (BESS) development platform LC Energy, and its 6GW pipeline of projects, from developer Low Carbon.

Who is CCI & LC energy?

CCI is a commodities trader and acquired Dutch energy storage developer and operator S4 Energy last year, while LC Energy was, prior to this deal, a joint venture entity between UK-headquartered Low Carbon and Dutch firm QING.

Who owns LC energy & S4 Energy?

CCI subsidiary S4 Energy has acquired BESS development platform LC Energy, and its 6GW pipeline of Netherlands projects, from Low Carbon.

When will LC energy's Bess project come online?

LC Energy's pipeline includes four, 4-hour medium voltage BESS projects in the Netherlands, all of which are set to come online next year. Energy-Storage.news spoke with the firm's management team in September about a 500MW/2,000MWh permitted project, the largest to reach that stage in the country, though that is not coming online until 2026.

Did low carbon announce a deal with CCI & LC energy?

Low Carbon initially announced the deal this morning (29 October) via a Reuters report that said LC Energy's pipeline of projects in the Netherlands totalled 6GW, while CCI's announcement a few hours later said it was 7.5GW, potentially including projects outside the country.
