Lithium battery pack 17650

Overview

What is hr18650 battery?

HR18650: High power cells, continuous discharge current at 13A. Ideal for power tools and high current drain applications! *1C = discharge to a cell's full capacity. Custom terminations are available upon request. Our Lithium-Ion batteries have been tested in compliance with international standards for safety and certain conditions of abusive use.

Are lithium ion batteries safe?

Our Lithium-Ion batteries have been tested in compliance with international standards for safety and certain conditions of abusive use. Those tests include drop test, short circuit test, over charge test, heating test, nail and/or press test. Our Lithium ion cells have proved safe and reliable under the test conditions.

What does 1C mean on a lithium ion battery?

*1C = discharge to a cell's full capacity. Custom terminations are available upon request. Our Lithium-Ion batteries have been tested in compliance with international standards for safety and certain conditions of abusive use. Those tests include drop test, short circuit test, over charge test, heating test, nail and/or press test.
