Mainly engaged in solar photovoltaic components

Overview

Who is solar energy group?

The Group is an integrated supplier of PV power plant construction and operation business, solar energy product production and manufacturing business, solar energy storage and optoelectronics integration business, and is committed to the development and operation of other clean energy businesses.

Who is Solax power?

SolaX Power is a well-known international provider of photovoltaic (PV) energy storage systems and products. It mainly offers PV energy storage inverters, energy storage batteries, and grid-connected inverters for distributed PV energy storage and grid-connected applications to its international customers.

What are the top 5 solar module manufacturers in 2023?

The total module shipments of the top 5 manufacturers nearly reached 300GW in 2023. The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as last year.

Who will dominate the global PV module market in 2023?
