

SolarGrid Energy Solutions

Malaysia is doing energy storage projects

Overview

KUALA LUMPUR (Aug 21): The bidding round for four large-scale, grid-connected battery storage projects in Peninsular Malaysia has attracted significant interest, with more than 20 industry players submitting over 30 bids, according to sources. Are battery energy storage systems becoming a reality in Malaysia?

The utilities sector in Malaysia is witnessing significant advancements in battery energy storage systems (BESS), evolving from concept to reality with notable projects underway. The first large-scale BESS project is currently being constructed in Sabah, a pivotal development for the country's energy landscape.

What is Malaysia's first utility-scale battery energy storage system?

Malaysian utilities company Sarawak Energy has commissioned what is described as the nation's first utility-scale battery energy storage system (BESS). The 60 MW/82 MWh BESS, which was first energized in Dec 2024, shares the site with the soon-to-be-phased-out Sejingkat Power Plant, first commissioned in 1998.

Will Malaysia increase its solar capacity in 2025?

Malaysia has been taking steps to increase its solar capacity in recent months. In Jan. 2025, the country's Ministry of Energy Transition and Water Transformation (Petra) announced that it was adding an additional bidding round under its Large Scale Solar (LSS) program for the development of 2 GW of PV power.

Will Eve Energy's Malaysia factory be a benchmark project?

Mr. Liu Jincheng, Chairman and Founder of EVE Energy Co. Ltd, stated that, "EVE Energy's Malaysia factory, as the first step in its global expansion, will focus on creating an international benchmark project.

When was Bess first energized in Malaysia?

The 60 MW/82 MWh BESS, which was first energized in Dec 2024, shares the site with the soon-to-be-phased-out Sejingkat Power Plant, first commissioned in 1998. The commissioning is a new development for utility-scale BESS in Malaysia.

What is Malaysia's commitment to sustainable mobility?

Malaysia's Commitment to Sustainable Mobility In 2024, Malaysia recorded RM15.8 billion in approved investments in the transport equipment sector, reflecting the nation's strong commitment to building a sustainable mobility ecosystem.
