New Inverter Solar

Overview

Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity. CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.

What is a solar inverter?

The solar inverter is one of the most important parts of a solar system and is often overlooked by those looking to buy solar energy. This review highlights the best inverters from the world's leading manufacturers to ensure your solar system operates trouble-free for many years.

How do I choose the best solar inverter?

Choosing the right inverter is key to maximizing your solar production, increasing your savings, and monitoring the health of your solar system. To find the best inverter for your needs, connect with a solar.com Energy Advisor to review custom designs and proposals.

Which solar inverter is best for You?

We've narrowed down the top products of 2025, but the best way to find which inverter is best for you is to review your options with an Energy Advisor. Enphase has had #1 market share for residential solar inverters for the past several years because they continue to push the envelope of innovation, service, and reliability.

Who makes the best solar string inverter?

We review the best grid-connect solar inverters from the world's leading manufacturers Fronius, SMA, SolarEdge, Fimer, Sungrow, Huawei, Goodwe, Solis and many more to decide who offers the highest quality and most reliable solar string inverters for residential and commercial solar.

Which solar panel has a microinverter?

The Q.Tron AC module is actually a solar panel with a built-in microinverter. And, since we named it “Rookie of the Year” in our best solar panels for 2025 ranking, it should come as no surprise that we think they’re the best new inverter on the block too. Q Cells is a well-established solar panel manufacturer.
