Outdoor base station CLK is not on

Overview

How do I reconnect my outdoor sensor to the base station?

There are steps below that will assist you in getting the sensor to reconnect with the base station and in most instances will rectify the issue without any further steps needed. 1. Bring the outdoor sensor in from outdoors and place it approximately 1-3 metres away from the base station.

How do I remove the outdoor sensor from the base station?

1. Bring the outdoor sensor in from outdoors and place it approximately 1-3 metres away from the base station. 2. Remove all batteries (this includes the outdoor sensor/sensors and the base station) and allow all items to completely drain for approximately 20 minutes.

How do I get help choosing a weather station or anemometer?

If you need assistance selecting a weather station or an anemometer for your requirements please feel free to contact one of our friendly Scientists via email or phone on 1300 261 701. See our other newsletter articles [here](#)!
