# Price of photovoltaic modules for Sudan Villa

#### **Overview**

Which type of solar PV system is best for Sudan?

HOMER simulation results demonstrated that the optimal type of PV for Sudan is the Studer VarioTrack VT-65 with Generic PV. The utilization of a solar PV system will avoid the production of approximately 27 million kg/year of pollutants and will reduce the cost of energy to USD\$ 0.08746/kWh.

Where can solar energy be used in Sudan?

The optimal locations found in Sudan for utilizing solar energy were Wawa, followed by Kutum, Wadi Halfa, Dongola and Al-Goled due to their low costs of electricity, high clearness index and high levels of solar radiation.

Is solar energy feasible in Sudan?

Situated in the sunbelt, Sudan is one of the largest countries in Africa endowed with an extremely high solar irradiation potential. However, no work has been done in the literature with a strategic context to study specifically the feasibility of renewable energy systems in Sudan despite the abundance of solar resource.

Will solar power help solve Sudan's electricity crisis?

Given that Sudan is endowed with an extremely high solar irradiation potential, the government has set a target of achieving a 667 MW of PV installed capacity by the end of 2031 (Murdock et al. 2019). This clearly reflects that the latter technology will play a key role in adjusting the electricity crisis of Sudan in the near future.

Where are solar PV systems simulated in Homer software?

The solar PV systems under consideration were simulated in HOMER software in 21 locations in Sudan: Port Sudan, Omdurman, Al-Qadarif, Kassala, Kosti, Al-Obeid, Dongola, Al-Junaynah, Al-Fashir, Nyala, Wadi Halfa, Al-Damazin, Haiya, Ad-Damar, Abu Hamed, Merowe, Kutum, Salala, Wawa, Karima, and Al-Goled.

Will PERC modules be changed in India in 2025?

In India, domestically produced modules will be changed to TOPCon products, and the export price from China will be removed from May 2025. In the U.S., the public pricing for PERC modules will be cancelled, and the pricing for domestically produced TOPCon modules will be added from May 2025.
