Residential Solar Photovoltaic Systems in Slovenia

Overview

How much solar power does Slovenia have?

Director Nina Hojnik told pv magazine the total includes 191.5 MW of residential installations, 100.8 MW of commercial and industrial (C&I) projects, and 6.5 MW of utility-scale capacity. Last year's additions fell from 486 MW in 2023, bringing Slovenia's cumulative solar capacity to 1.4 GW.

Does Slovenia have a solar market?

Slovenia's solar market is experiencing significant growth, with 85 MW of new capacity installed in the first half of 2025, according to PV Magazine. This expansion is driven by the increasing adoption of both residential and commercial and industrial (C&I) solar projects.

How many solar panels did Slovenia install in 2025?

Slovenia installed 85 MW of solar in the first half of 2025, driven by growth in commercial and industrial (C&I) projects and utility-scale installations. The lowest total in four years reflects a sharp decline in residential installations, despite continued subsidies for residential hybrid systems.

What is the potential of photovoltaic energy in Slovenia?

Slovenia offers great potential for exploiting photovoltaic energy due to evenly spread solar irradiation. The first photovoltaic power plant in Slovenia was set up in 2001. At the end of 2017, 4,231 photovoltaic power plants had been installed in Slovenia with a total power of 267 MW.

Why are solar projects growing in Slovenia?

This expansion is driven by the increasing adoption of both residential and commercial and industrial (C&I) solar projects. The cumulative capacity of solar installations in Slovenia now stands at 1.2 GW, according to data from the Energy Agency of Slovenia.

What happened to Slovenia's solar market in 2024?

Slovenia's solar market slowed in 2024, but the residential segment maintained the largest share as it adjusted to the phase-out of net metering and a new electricity tariff system. Slovenia installed 298.8 MW of solar capacity in 2024, according to the Slovenian Photovoltaic Association (Združenje slovenske fotovoltaike).
