Romania Communications 5G Base Station 2025

Overview

Where will 5G be available in 2025?

By 2025, 5G coverage should be available in all urban areas, on the main highways, express roads and railways, in international airports and ports, and in 10 industrial parks. Romania's Recovery and Resilience Plan (RRP) contributes with EUR 3 billion to the digital transformation.

Does Romania support Gigabit society 2025 & digital decade 2030?

The reference framework in the field of broadband network development in Romania supports the Gigabit Society 2025 as well as Digital Decade 2030 targets. The National Strategy for the Implementation of 5G sets strategic objectives for 5G rollout.

Does Romania use Chinese technology in 5G networks?

In September 2019, the former US Ambassador to the European Union praised Romania for not using Chinese technology in its 5G networks. In January 2020, the US Embassy in Romania issued a statement emphasising that companies connected to an authoritarian government like China could not be trusted.

What is the National Strategy for the implementation of 5G?

The National Strategy for the Implementation of 5G has been adopted in 2019. It sets four strategic objectives: rapid launch of 5G services, frontloading 5G benefits by 5G services coverage, reducing barriers for deployment of 5G networks and promoting new uses and stimulating cooperation.

Where is 5G available?

Currently, the 5G network is primarily available in major cities, however, efforts are being made to expand coverage to other areas as well. It is expected that operators are already working on providing the 5G network to stadiums, airports, and other special premises. 5. What public tenders have awarded spectrum licences?

.

Where can I find a reference framework for broadband development in Romania?

Address (Main Headquarters): D. I. Mendeleev 21-25, district 1, Bucharest, 010362, Romania
Contact via email Minister's Office Phone: +40 21 319 23 26
Website The reference framework in the field of broadband network development in Romania supports the Gigabit Society 2025 as well as Digital Decade 2030 targets.

Romania Communications 5G Base Station 2025
