Small distribution box distribution container base station

Overview

What is a small distribution substation?

Smaller distribution substations are subdivided into container-sized modules, which can be manufactured, assembled and tested at the factory, allowing easy transport and fast installation and commissioning at site.

Who makes the prefabricated box type substation?

The prefabricated box type substation (compact substation/package substation) is manufactured by Rockwill Electric in China. It meets IEC1330 standard and IP3X protection grade. The compact substation is adaptable to any harsh environments and being installed easily. We support customization for your special requirements. Contact us for your needs.

Who makes package substation?

Contact us for your needs. The prefabricated box type substation (compact substation/package substation) is manufactured by Rockwill Electric in China. It meets IEC1330 standard and IP3X protection grade. The compact substation is adaptable to any harsh environments and being installed easily.

How does a pre-fabricated building benefit a substation?

The pre-fabricated building shelters the equipment from environmental influences, thus increasing substation availability and reliability. Fences can be omitted, which simplifies permitting, while enhancing the substation's aesthetic appearance.

Why is Hitachi energy developing a pre-fabricated Indoor Substation?

Customers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations.
