

SolarGrid Energy Solutions

Solar power station in China in Jakarta

Overview

Located on the Cirata Reservoir in West Java province, about 130 kilometers from the capital Jakarta, the Cirata Floating PV Power Plant, with an installed capacity of 145MW, is expected to provide electricity for 50,000 households. China building a floating PV power plant in Indonesia?

POWERCHINA recently completed the installation of photovoltaic (PV) components for the Cirata Floating PV Power Plant in Indonesia, marking the start of the final debugging and grid connection phase. The plant is the largest floating PV power plant in Southeast Asia and the first of its kind to be built by a Chinese company in Indonesia.

Does powerchina have a photovoltaic power plant in Indonesia?

PowerChina has completed the Cirata floating photovoltaic power plant, a pioneering project in Indonesia that now supplies a quarter of the country's renewable energy production.

Where is the largest photovoltaic power plant in Southeast Asia?

PowerChina has completed the construction of the Cirata floating photovoltaic power plant in Indonesia. This marks the commissioning of the largest facility of its kind in Southeast Asia. The plant, with a capacity of 192 megawatts, is located on the Cirata Reservoir in West Java Province.

What are the key projects undertaken by powerchina in Indonesia?

The Jatigede Dam Project is one of the key economic and trade cooperation projects between China and Indonesia. Cirata Photovoltaic Project is the first floating photovoltaic in Indonesia, and also the largest one in Southeast Asia. Key projects undertaken by POWERCHINA in Indonesia: 1. Jakarta-Bandung High-Speed Railway Project.

What is Indonesia's largest land-based photovoltaic plant?

(Executive editor: Zhu Zeya) Indonesia's largest land-based photovoltaic

plant, designed and constructed by Power Construction Corporation of China (PowerChina), has been put into operation.

Where is a 192 megawatt power plant located in Indonesia?

The plant, with a capacity of 192 megawatts, is located on the Cirata Reservoir in West Java Province. It has been supplying power to the national grid since November 2023. The project is a joint venture between Indonesian state-owned utility Perusahaan Listrik Negara (PLN) and Emirati firm Masdar.
