South African energy storage vehicle prices

Overview

Does Scatec have a solar-plus-storage site in South Africa?

Scatec's Kenhardt solar-plus-storage site in South Africa (above), which went online at the end of 2023. Image: Scatec. Africa's energy storage market has seen a boom since 2017, having risen from just 31MWh to 1,600MWh in 2024, according to trade body AFSIA Solar's latest report.

Which fully electric cars are available in South Africa?

Here, then, is the definitive list of all the fully electric cars available for purchase in South Africa. Billed as a "zippy" SUV for city environments, the Dayun Yuehu S5 has launched in South Africa, with the newcomer, which is priced from below R400 000, aiming to "redefine" the local EV segment.

Is back-up power a solution to South Africa's energy crisis?

The current energy crisis in South Africa, coupled with the decreasing cost for energy storage systems, will see the market for back-up power as a replacement for diesel generation and solar PV hybrid increase.

What are the most popular solar-plus-storage developments in Africa?

As noted by AFSIA Solar, one of the most notable solar-plus-storage developments in Africa is Norway-based independent power producer (IPP) Scatec's 225MW/1,140MWh Kenhardt project in South Africa. The site started operation in late 2023 (pictured above).

What is the cheapest EV in South Africa?

The Dongfeng Box – recently test-driven on TechCentral's new motoring show, Watts & Wheels – is set to be one of the cheapest EVs available to South African consumers, starting at R460 000. But taking the top spot as the cheapest EV in South Africa in TechCentral's list for the second half of 2025 is once again the Dayun S5.

Which EVs are cheapest in South Africa in 2025?

Again, several manufacturers have also increased the prices of their EVs leading into 2025, while some underperforming models are no longer sold in the country. The Dongfeng Box – recently test-driven on TechCentral's new motoring show, Watts & Wheels – is set to be one of the cheapest EVs available to South African consumers, starting at R460 000.
