Are givenergy hybrid inverters still popular in the UK?

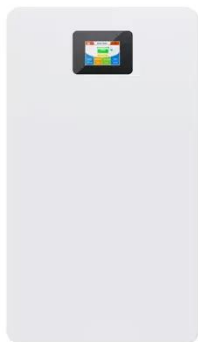

From 2018-2023, the GivEnergy hybrid inverter range here in the UK offered two power capacities: And those options served us well. They've proved (and are still proving) highly popular in tens of thousands of homes across the UK. But the modern home is increasingly power-hungry.

When should I replace my fit inverter?

Back in time when I had my system installed (2011) one of the points that was often quoted was that during the lifetime of the FIT we would be looking at replacing our inverters after about 10 years, we are now at that time. Have long term users found this to be true or were people being overly pessimistic re reliability?
