Uninterruptible power supply 220v lithium battery

Overview

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) combines surge protection and battery backup into one unit. Adding a UPS to your computer, router, or other electronic device protects them from damage and ensures uptime. Uninterruptible power supply (UPS) units aren't just for data centers and overly cautious geeks.

Do uninterruptible power supplies use lithium-ion batteries?

Unlike the batteries in other devices around your home, like your smartphone and Bluetooth speakers, Uninterruptible Power Supplies don't use lithium-ion batteries. The batteries in your UPS are lead-acid batteries, like the battery in your car.

What is SCU rack-mounted UPS power supply?

SCU rack-mounted UPS power supply, united with lithium ion battery, has small size but large capacity. Our uninterruptible UPS power supply rack-mount is with lithium-ion battery access, good performance and manageability. If need rack mount battery backup, quote our rack mountable UPS now!
