Overview

Who should install an outdoor socket?

With this in mind, the installation of an outdoor socket should only be carried out by an experienced and qualified Part P registered electrician that has the skill and knowledge to do it correctly, test it and then sign it off with a minor works certificate when complete.

Why do you need an exterior socket?

Correctly installed, an exterior socket is a very useful facility to have. It means you no longer have to run extension leads from inside the house, with the potential for tripping over them! It enables you to run electric garden equipment such as a lawn mower, hedge trimmer and various other items including power tools, in a far safer way.

Do outdoor sockets need a RCD?

Due to this, an outdoor socket should be at minimum IP66 rated, making it water and dust resistant. Additionally, any outdoor socket **MUST** be protected by a 30mA RCD e.g. it must be wired off of a 30mA circuit with an RCD in your consumer unit. However if this isn't the case then the socket itself must have its own RCD built into it.

Are outdoor sockets waterproof?

As an outdoor socket will be exposed to the elements e.g. water and moisture, to prevent it shorting out and causing untold issues with your home electrics it needs to be sealed and protected. To these ends, it should be at minimum IP66 rated meaning that it is waterproof and resistant to any dust ingress.

Where should your exterior socket be located?

Where you sight your exterior socket is extremely important. You want to ensure it is in a place where it is easily accessible when needed, fixed to a solid, stable surface and also on the right side of the house.

Are outdoor sockets IP66 rated?

As we are dealing with electricity outdoors there is always the potential for it to come into contact with the elements, namely water and moisture. Due to this, an outdoor socket should be at minimum IP66 rated, making it water and dust resistant.

What accessories are needed for outdoor power supply assembly

Best Portable Power Supplies for Camping and ...
